### Independent auditor's report on review of interim financial information

### To the Board of Directors of Nation Multimedia Group Public Company Limited

I have reviewed the accompanying consolidated and separate statements of financial position of Nation Multimedia Group Public Company Limited and its subsidiaries, and of Nation Multimedia Group Public Company Limited, respectively, as at 30 June 2016; the consolidated and separate statements of comprehensive income for the three-month and six-month periods ended 30 June 2016, and the consolidated and separate statements of changes in equity and cash flows for the six-month period ended 30 June 2016; and condensed notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

### Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

#### Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

### Emphasis of Matter

Without qualifying my conclusion, I draw attention to notes to the interim financial information as follows:

Note 3 Adjustments of prior period describing the effect of the Group's restatement related to digital television licences. The consolidated statement of comprehensive income for the three-month and six-month periods ended 30 June 2015, the consolidated statements of changes in equity and cash flows for the six-month period ended 30 June 2015, which are included as comparative information, have been adjusted as described in note 3.

Note 8 Business restructuring of a group of subsidiary, on 3 August 2016, the Board of Directors of the subsidiary approved the business restructuring of the group of subsidiary's publishing and distribution of publications in accordance with the current situation. The group of subsidiary is in the process of launching new businesses and seeking for business alliances for the investment in 2016.

Notes to the interim financial statements

For the three-month and six-month periods ended 30 June 2016 (Unaudited)

These notes form an integral part of the interim financial statements.

The interim financial statements issued for Thai regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language financial statements, and were approved and authorised for issue by the Board of Directors on 5 August 2016.

#### **1** General information

Nation Multimedia Group Public Company Limited, the "Company", is incorporated in Thailand and has its registered office at 1858/118-119, 121-122, 124-130, 27<sup>th</sup>-32<sup>nd</sup> Floors, Bangna-Trad Road, Kwang Bangna, Khet Bangna, Bangkok, Thailand.

The Company was listed on the Stock Exchange of Thailand in June 1988.

The principal activities of the Company are the publishing and distribution of newspapers and publishing, providing advertising and news services and others. Details of the Company's associate and subsidiaries as at 30 June 2016 and 31 December 2015 are given in notes 7 and 8.

### 2 Basis of preparation of the interim financial statements

### (a) Statement of compliance

The interim financial statements are prepared on a condensed basis in accordance with Thai Accounting Standard (TAS) No. 34 (revised 2015) *Interim Financial Reporting*; guidelines promulgated by the Federation of Accounting Professions (FAP); and applicable rules and regulations of the Thai Securities and Exchange Commission.

The interim financial statements are prepared to provide an update on the financial statements for the year ended 31 December 2015. They do not include all of the financial information required for full annual financial statements but focus on new activities, events and circumstances to avoid repetition of information previously reported. Accordingly, these interim financial statements should be read in conjunction with the financial statements of the Company and its subsidiaries for the year ended 31 December 2015.

The accounting policies and methods of computation applied in these interim financial statements are consistent with those applied in the financial statements for the year ended 31 December 2015 except that the Group has adopted all the revised TFRS that are effective for annual periods beginning on or after 1 January 2016. The adoption of these revised TFRS did not have any material effect on the accounting policies, methods of computation, financial performance or position of the Group or the Company.

#### (b) Functional and presentation currency

The interim financial statements are presented in Thai Baht, which is the Company's functional currency. All financial information presented in Thai Baht has been rounded to the nearest thousand unless otherwise stated.

Notes to the interim financial statements

For the three-month and six-month periods ended 30 June 2016 (Unaudited)

### (c) Use of judgements and estimates

The preparation of interim financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended 31 December 2015.

#### Measurement of fair values

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the CFO.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of TFRS, including the level in the fair value hierarchy in which such valuations should be classified.

Significant valuations are reported to the Group Audit Committee.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in measuring fair values is included in note 19 - financial instruments.

Notes to the interim financial statements

For the three-month and six-month periods ended 30 June 2016 (Unaudited)

### 3 Adjustments of prior period

The Group has adjusted prior period items which have a material effect on the Group's financial statements as follows.

In the second quarter of 2015, the Group presented digital television licences at cost less accumulated amortisation and presented digital television licences payable initially at cost less attributable transaction charges related to the liability incurred.

Due to the payment term of digital television licences is beyond the normal credit term of National Broadcasting and Telecommunications Commission ("NBTC"), the Group is required to determine the costs of digital television licences with the cash price equivalents based on present value of instalments at the recognition date and recognise the difference between the cash price equivalents and the total payments as finance costs over the payment period of digital television licences. Therefore, the Group adjusted the costs of digital television licences to comply with TAS 38 (revised 2014) Intangible Assets with retrospective adjustments of comparative information in the consolidated financial statements for the three-month and six-month periods ended 30 June 2015 in accordance with TAS 8 (revised 2014) Accounting Policies, Changes in Accounting Estimates and Errors. #### Financial instruments carried at fair value

#### Fair value hierarchy

The table above analyses recurring fair value measurements for financial assets. These fair value measurements are categorised into different levels in the fair value hierarchy based on the inputs to valuation techniques used. The different levels are defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

The Group determines Level 2 fair values for debt securities held for trading using total net assets value of the investments from Asset Management Entity's Report.
